

REBECCA BOYLE

Special Event

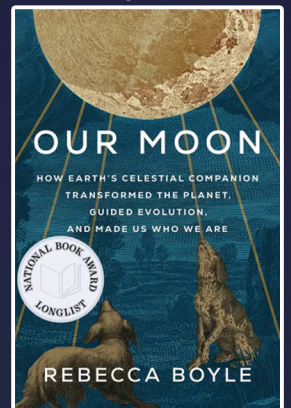

AUTHOR

REBECCA BOYLE

November 12 | 5 pm

Reitz Union Auditorium

Explore the profound relationship between humanity and the Moon with journalist Rebecca Boyle, author of the upcoming book *OUR MOON: How Earth's Celestial Companion Transformed the Planet, Guided Evolution, and Made Us Who We Are*. With a diverse background reporting from particle accelerators to the tops of mountains, Rebecca brings a unique perspective to science and storytelling.

A contributing editor at *Scientific American* and frequent writer for *The Atlantic* and *Quanta Magazine*, her acclaimed work has been featured in prestigious publications including the *New York Times* and *Nature*.

Don't miss this opportunity to hear Rebecca share her lunar story insights. Join us for an evening of exploration and discovery!

Open to the public.
